A Rich Retirement Is Waiting... Do You Have An Edge?

Use This Income Hack to Earn \$500 a Month With Nothing but Your Car

Exclusive Book Excerpt from Zach Scheidt

Dear Reader,

As a *Daily Edge* reader, I want to give you a sneak preview of my new best-selling book called the **Big Book of Income: 47 Work-Free Ways to Live a Rich Retirement**. I wrote this book to serve as a lifeline to retirees (or future retirees) who need extra income to cover day-to-day expenses.

We have already gone ahead and reserved a full, free autographed copy for you. [Click right here](#) to learn how to claim it now.

For generations, the thought of retirement filled workers with anticipation. The American dream was to work hard, be financially responsible and enjoy your golden years with friends and family.

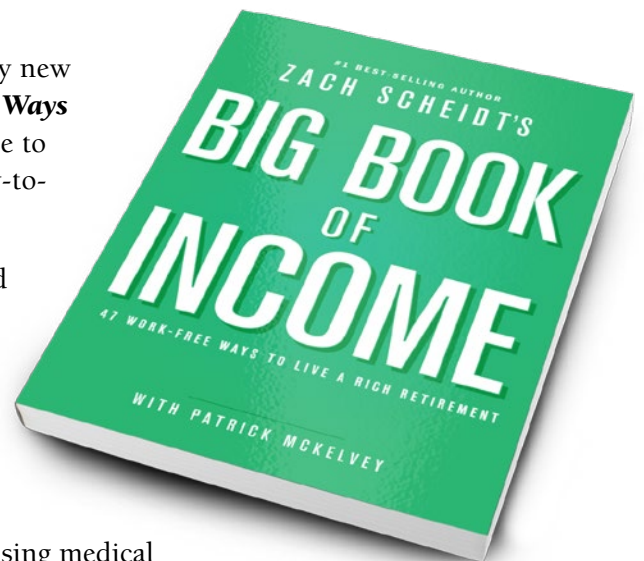

But for too many retirees, this dream has become a nightmare. Rising medical costs, underfunded retirement accounts, low interest rates and a near-bankrupt Social Security system are just a few of the challenges retirees face.

While the challenges for retirees are real, there are many alternative ways to generate extra income. My hope is that this book will help you build your income, so you can focus on the things that really matter!

I'll share secrets like how to:

- Squeeze as much as **an extra \$6,840 per year out of your Social Security** benefits...
- “UPGRADE” Your Savings Account And Earn **12 Times More Interest** — I Can't Believe More Seniors Aren't Using This Simple Trick!
- **Collect A Rare 7% GOLD Dividend** That NOBODY Is Talking About! (It's Paid Like Clockwork For Over 10 Years, Too!)
- How To Make **\$35 An Hour Walking On The Beach... Earn Up To \$1,720 In “Backdoor Rental Income”...** Go Shopping And NET CASH The Next Time You Go To The Grocery Store... And More!

In this section of the [Big Book of Income: 47 Work-Free Ways to Live a Rich Retirement](#) you'll learn one of these life-changing work-free income secrets.

How to Turn Your Buick Into a Bentley...

Wouldn't it be nice to head to the beach this summer... in a brand-new, top-down convertible you earned from your old, beat-up clunker?

While it sounds unlikely, this income hack can generate hundreds of dollars a month using nothing but your car. You can use that income to upgrade your vehicle... or simply save the cold, hard cash!

If you have an extra vehicle or plan on trading in your current ride to get a new one, you may want to think twice.

With Turo (formerly RelayRides), you could be adding thousands of dollars to your pocket each year, whether you have a station wagon from 2001 or a brand-new sports car!

Turo is a ride-sharing app that allows users to list their car for rent on a day-to-day basis.

With a million-dollar insurance policy and thousands of users, you'll see why Turo is one of the best ways to make money using your old vehicle.

Turo is a San Francisco-based company, and their services are available in nearly every city in the U.S.

Their user-friendly website makes it easy to find information, and their customer support team is there to answer any of your questions.

The following are the steps of the rental process, according to Turo.

Listing your car:

1. Create a free listing with a few clicks. Describe your car, upload some clean photos and you're ready to go. Be sure to keep your calendar up-to-date so travelers know when your car is available.
2. Respond to requests. You'll get notified instantly when someone requests or books your car. Confirm or decline the trip as soon as possible, and contact the traveler if you have any questions.
3. Meet your guest. Coordinate where and when you'll meet your guest. Check their license, walk around the car, check fuel and mileage and send them off on their adventure.
4. Kick back and earn. Rest easy, Turo covers your car with \$1 million in liability insurance and 24/7 roadside assistance throughout the trip, so you can just watch the dollars roll in.
5. Pick up your car. Meet your guest, make sure everything is in order, give them a high-five and head on home. Don't forget to rate and review them in the app to help keep the marketplace strong and honest.

Once you create a listing, you get to choose between three options for delivering your car.

The easiest option is having travelers pick up the car at the owner's location. This requires the least amount of effort for the owner but may restrict the number of customers if they must travel to an inconvenient location.

The other options require more work on behalf of the owner but should ultimately increase the number of customers. These options include dropping off the vehicle at custom locations within a set radius or delivering to a nearby airport.

In terms of pricing, you can manually set your own daily price or let Turo's algorithm dynamically set the rental price for you. Their computation takes into account your vehicle's current market value, location, time of year and other data to maximize your income and boost your listing competitiveness.

For every rental, you'll be paid via direct deposit within five days. You'll earn 65–85% of the trip price depending on the vehicle protection package you choose.

Choose Your Turo Insurance Plan!

PROTECTIONS		Premium	Standard	Basic	Owner-Provided
	\$1,000,000 liability	X	X	X	
	Physical damage protection for value of the car up to \$125,000	X	X	X	
	Owner deductible for physical damage to owner's car	\$0	\$0	Up to \$3,000 (Turo pays 20% up to first \$3,750 of damage and 100% after that, up to \$125,000 limit)	
	Replacement vehicle during repair period	X	X		
	Exterior wear & tear coverage	X			
	Loss of rental income	X			
	Portion of trip price kept by owner	65%	75%	85%	90%

And while the insurance policies have you covered, you can rest easy knowing that Turo has done their own due diligence on drivers.

Before a traveler can request your car, she or he must provide the following information (taken from Turo's website):

- **Driver's license information:** Every traveler must submit his or her driver's license number
- **Payment card information:** He or she must also provide their payment information
- **International drivers:** Non-U.S. and Non-Canadian drivers may have to provide additional information
- Turo also requests a potential traveler's auto insurance score from a consumer reporting agency, and the score must meet their minimum eligibility criterion.

Based on the information that Turo receives, their security software analyzes the potential driver's eligibility and verifies their identity.

If a driver is confirmed, the owner must verify the renter's driver's license and that the name matches the information provided in the trip details before keys can be handed over.

After that, it's smooth sailing!

Earn hundreds a month just renting out your old car a few days a week. Or if you are planning on trading in your car for a new one, Turo could be the perfect way to double or triple the amount you would have gotten from a trade-in.

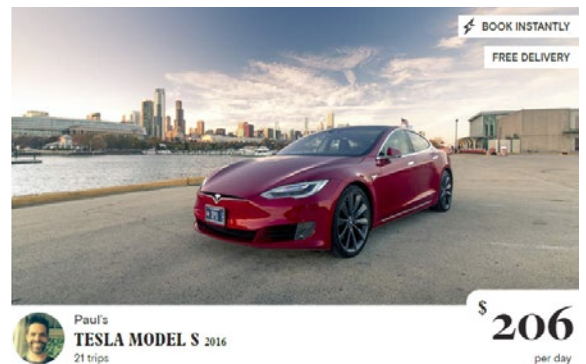

Just check out some real examples on the right!

You can see that Turo provides a wide range of vehicles to satisfy the wants or needs of any customer.

But I'm not the only one keen on this company... Turo has recently been featured in many major news outlets.

Just see what others are saying!

"It was extremely easy to get started as an owner on Turo. I've been booked at least a few times now by various renters and the process has been pretty straightforward."

Overall, Turo has been a great experience and I see no reason to stop using it.”

— Unknown, Trustpilot.com

“Car owners in the [Turo] program can recoup hundreds of dollars a month to offset car payments, insurance and other costs of ownership.”

— *The New York Times*

“I’ve made over \$12,000 renting out my car, and it’s allowed me to live in San Francisco.”

— Peer-to-peer lending expert Caterina Rindi to Yahoo
